A note from the producer...

I would like to be able to work with you to customize the production so that it meets both your needs and pocketbook!

You are not limited to the packages shown in the brochure. I will gladly let you take charge of the design for the final production. This includes Weddings, Memory Albums, Digital Scrapbooks, and any other production you would request (Of course, all must be in good taste!). You will find that I am very flexible and that the productions are truly affordable.

Digital productions enable you to preserve memories and share with others – as duplication of VHS tapes and DVD is easily done at an affordable cost. Productions done for presentation at the Bride's Shower, at the Groom's "Storm", or at the rehearsal evoke much laughter and often "tears of joy" as it progresses through the years for both the bride and groom.

Family Memory Albums let you share the old pictures from generations past with all family members in such a delightful way – for any event on the horizon! Photos on CD or DVD can be professionally printed at local stores.

Consider a video or other digital production for that special someone – give a heartwarming gift that will be appreciated for years to come!

*Sincerely,
Lynda Keller*
